

Day Camp Kit List

We are really looking forward to welcoming you to camp!

Remember, you're going to be doing lots of activities, so clothing should be tough and easily washed rather than expensive.

We recommend comfortable clothing that you can move easily in and that is also weather appropriate.

Here is a handy checklist:

- weather-suitable clothes including layers
 - long sleeved top and full-length trousers for quad biking
 - shoes that cover your toes and have good grip (wellington boots/sandals/flip flops/sliders are not suitable)
- refillable water bottle (this should be full on arrival)
- packed lunch (please avoid nut or nut products)
- change of clothes (including socks!)
- swim kit (Camp Pangbourne only)
- high SPF sun cream (able to be self-administered)
- baseball cap / sun hat
- waterproof raincoat

Covid-19

Children should arrive in their activity clothes ready to go so we can avoid the use of enclosed settings like changing rooms.

The swimming pool at Camp Pangbourne will only be used if and when Government restrictions are eased.

Facemasks

Your child is welcome to wear a facemask to and whilst they are at camp if they or you would like them to. We will be asking children to wear facemasks when participating in quad biking, but these will be provided, unless you have chosen to bring your own.

Electronic Items

If a mobile phone is brought to camp, it will be kept in the Centre Managers office throughout the day.

We can't indemnify for loss of or damage to expensive possessions such as games consoles, which is why these are best left at home.

Active Study Club

If you are 15 or 16 and coming to Active Study Club, please bring your self-study work. Our teacher will be able to support your understanding and learning but you will need to bring all study materials with you.

Specialist Camps

You do not need to bring anything with you, all equipment is provided. However, you are welcome to bring any clothing or footwear that might make you more comfortable. For example, footballers may want to bring trainers, shin pads and socks.

Further information

- With so many children suffering from allergies, we ask parents to avoid items with nuts in all packed lunches as a precaution
- Each item should be name-tagged, and we ask you to check that all your child's possessions are taken home from camp at the end of the day
- All children will have access to both changing rooms and secure storage
